Italian 1

Introduction

Buongiorno! Welcome to Pimsleur's Italian! Throughout the world, approximately eighty-five million people speak Italian every day. Italian is spoken by sixty-seven million native speakers, not only in Italy itself, but also throughout Europe - in Switzerland, San Marino, the Vatican, Croatia and parts of Slovenia. Add to that millions of expats living in Australia, South America or the United States, and millions more who speak Italian as a second language and you have a vibrant community of kind, lively people ready to help you practice Italian.

Piacere!

Italian, like French, Spanish, Portuguese or Romanian, is a Romance language, which means that it is derived from Latin. Unsurprisingly, today's Italian is the Romance language that most closely resembles the original Latin. But today's conversational Italian barely sounds or looks like Church Latin. As a matter of fact, after the fall of the Roman Empire in the 5th century, it took hundreds of years for Italian to emerge and coalesce into its own language.

It is widely recognized that 14th century Florentine poets Dante Alighieri, Giovanni Boccaccio and Francesco Petrarch helped standardize the language by adopting elements of both the northern and the southern Italian cultures and dialects. Through their writings published in their local Tuscan dialect, these three great poets of the 1300s can be credited with forming the basis of modern Italian.

Italian 1

Today, many dialects remain actively spoken throughout Italy, by both older and younger generations, especially among friends or within families, alongside standard Italian. In fact, many words in contemporary Italian were borrowed from regional dialects.

Modern Italian itself is rich with words of differing origin: Latin, of course, but also ancient Greek, some French, a little German, and even a smattering of Spanish and Arabic.

And what would the English language be without Italian words? Many words in music, opera, and the arts (*piano, opera, soprano, ballerina, maestro*) come directly from Italian. In geography and adventure, we can thank Italian explorers (*volcano, archipelago, America*). There are Italian words in politics or family drama (*drama, vendetta, politico, propaganda, stiletto*). And food and drink (*antipasto, lasagna, pepperoni, bruschetta, gelato, macchiato*) definitely have more flavor thanks to Italian!

As you embark on your Italian adventure, remember that speaking clearly and naturally is not always easy to do at an introductory level, and you may have to repeat a lesson a few times if necessary. The Pimsleur Method has a proven success rate and you will find that it is well worth the effort. We hope you enjoy the journey. *Buon viaggio!*

Italian 1

The Reading Lessons

There are thirty Reading Lessons included with this course – one for each audio lesson. You can do them individually with each lesson or wait and do them all together after finishing all the audio lessons. The Italian alphabet is the same as the English alphabet - minus the letters j, k, w, x and y - but don't be fooled. Italian has its own unique sound system.

You'll notice that the words taught in the Reading Lessons don't match up with the vocabulary in the corresponding audio lesson. In Level 1, the Reading Lessons introduce you to the sounds of the letters, then letter combinations, and eventually full sentences. This is a different process from the audio lessons which focus on aural integration of the sounds through listening rather than seeing written Italian. Much like interval training does for your physical conditioning, approaching a language from two different directions speeds up the learning process and enhances your ability to hear and speak with near-native fluency.

While you're initially learning the sounds of the letters, the meanings of the words are irrelevant, and can be a distraction. Translations are provided for each lesson, although we recommend that you read or at least try to sound out words before looking at the translations. Our translations may appear awkward at times, but it's done intentionally to match the English to the Italian.

Italian 1

Complete instructions on how to do the readings are contained in the audio of the Reading Lessons. Unlike your daily Pimsleur audio lessons, the Reading Lessons require you to not only speak aloud, but also to read, so don't attempt to do them while walking or driving.

Now, let's get started with your first Reading Lesson, and you can see for yourself how they work.

Italian 1

Lesson One

1. io
2. mi
3. mio
4. tipo
5. presto

Italian 1

Lesson One Translations

1. I
