Introduction

Buongiorno! Welcome to the Reading Lessons for Pimsleur's Italian 3!

Did you know that throughout the world approximately eighty-five million people speak Italian every day? Italian is spoken by sixty-seven million native speakers, not only in Italy itself, but also in Switzerland, San Marino, the Vatican, Croatia and parts of Slovenia. Add to that millions of expats living in Australia, South America and the United States, and millions more who speak Italian as a second language and you have a vibrant community of kind, lively people ready to help you practice Italian. *Piacere!*

Italian, like French, Spanish, Portuguese and Romanian, is a Romance language, which means that it is derived from Latin. Unsurprisingly, today's Italian is the Romance language that most closely resembles the original Latin. But today's conversational Italian barely sounds or looks like Church Latin. As a matter of fact, after the fall of the Roman Empire in the 5th century, it took hundreds of years for Italian to emerge and coalesce into its own language.

It is widely recognized that 14th century Florentine poets Dante Alighieri, Giovanni Boccaccio and Francesco Petrarch helped standardize the language by adopting elements of both the northern and the southern Italian cultures and

Italian 3

dialects. Through their writings published in their local Tuscan dialect, these three great poets of the 1300s can be credited with forming the basis of modern Italian.

Today, many dialects remain actively spoken throughout Italy, by both older and younger generations, especially among friends or within families, alongside standard Italian. In fact, many words in contemporary Italian have been borrowed from regional dialects.

Modern Italian itself is rich with words of differing origin: Latin, of course, but also ancient Greek, some French, a little German, and even a smattering of Spanish and Arabic.

And what would the English language be without Italian words? Many words in music, opera, and the arts (*piano, opera, soprano, ballerina, maestro*) come directly from Italian. In geography and adventure, we can thank Italian explorers (*volcano, archipelago, America*). There are Italian words in politics and family drama (*drama, vendetta, politico, propaganda, stiletto*). And food and drink (*antipasto, lasagna, pepperoni, bruschetta, gelato, macchiato*) definitely have more flavor thanks to Italian!

As you embark on your Italian adventure, remember that speaking clearly and naturally is not always easy to do at an introductory level, and you may have to repeat a lesson a few times if necessary. The Pimsleur Method has a proven success rate and you will find that it is well worth the effort. We hope you enjoy the journey. *Buon viaggio!*

The Reading Lessons

There are thirty Reading Lessons included with this course – one for each audio lesson. You can do them individually with each lesson or wait and do them all together after finishing all the audio lessons. The Italian alphabet is the same as the English alphabet - minus the letters j, k, w, x and y - but don't be fooled. Italian has its own unique sound system.

As in Levels 1 and 2, the Readings in Level 3 do not provide a list of the words or sentences taught in the audio lessons. Rather, we continue to take you to the source – the sounds of individual letters and letter combinations. In this way you'll keep learning how these sounds play out in words and sentences. Don't be afraid to push yourself with your pronunciation and accent. Be dramatic and have fun! The closer you can get to the native speaker's pronunciation, the more authentic your experience will be, and the more easily you'll remember what you've learned.

Complete instructions on how to do the readings are contained in the audio of the Reading Lessons. Unlike your daily Pimsleur lessons, the Reading Lessons require you to not only speak aloud, but also to read, so don't attempt to do them while walking or driving.

Now, let's get started with your first Reading Lesson, and you can see for yourself how they work.
